Mathieu De Keyzer

Web Team Leader & Web Project Manager

About Me

After 17 years in software development and more specifically in PHP development, frontend development and distributed architectures; I never been scared to think out of the box and consider other options. In order to re-focalize the development effort on the real business needs and so improve the product quality and the user experience. I usually promote the use of libraries, toolboxes or frameworks to speed up the development efforts. Even if I started my own OpenSource CMS project.

People see me as someone of:

- ready to make and assume decision & collaboration oriented
- very pragmatic & intuitive
- having a great learning capacity & creative

Willing to invest myself in ambitious projects inside of a motivated team, I m always looking for **innovative** and **elegant solution**. Seeing the software development as an all, I'm comfortable in all steps: planning, needs, architecture, development and deployment. I'm also convinced that only a **collaboration** of the full team guaranties the motivation and the investment of everyone (Agile & DevOps).

Education & Trainings

Trainings
- 2021 – Angular&Typescript from U2U
- 2020 – Devops foundation from QRP
- 2020 – Leadership@Distance from Better Minds at Work
- 2019 – AWS: Architecture & Implementation from Orsys
- 2019 – Elasticsearch from Zenika
- 2018 – Introduction to WCAG 2.1 from AnySurfer
- 2017 – ECMScript 2017 & WebPack from Orsys
- 2017 – Anysurfer WCAG AA from AnySurfer
- 2015 – Extending & Hacking Symfony 2 from King foo
- 2015 – Usability of user interfaces for Smartphones and Tablets from Orsys
- 2015 – Frontend Rich Client from Vision Consulting Group
- 2014 – Symfony from Dawan
- 2014 – The leader-coach from Performance-Partners
- 2013 – AnySurfer for developers from AnySurfer
- 2013 – The result oriented leadership from Performance-Partners
- 2011 – Learn Sencha Touch from Sencha learning center
- 2010 – Business Oriented English from Call international
- 2009 – Intensive English from CLL
- 2009 – Dutch lessons from Cefora
- 2008 – English lessons from HEB
- 2008 – .NET with C# : advanced aspects from Cefora
- 2007 – Java : advanced aspects from Cefora
- 2006 – WebSphere server : performance settings from IBM

Master degree in Computer Science from Université Libre de Bruxelles
2003

Grade: Distinction

Science and Mathematics from Séminaire de Floreffe
1995

Schooling followed in boarding school
